

A Day in the Life ...

March 2016 - letter #69

Dear Friends,

Hello. This March letter is actually about a day in my life. Or maybe just the story of the why this letter is so brief...

Very recently, my laptop froze up, and I was unable to find a way to make it work. It is now in the repair shop, where the IT people are hoping to repair it. Without my laptop, my only way of e-mail is through my phone. I know you would understand that typing a full article on my phone is difficult, and uses an immense amount of 'data.'

Please look for the April issue of the *Lectern*, where I hope to return with an article about the new teachers at the Akrampa school. Please say a prayer that my computer will be fixed by then.

Blessings, Pastor Ben
